## 76<sup>th</sup> Annual Meeting

German Society of Neurosurgery (DGNC)

**2025**  
**June 1-4**  
**HANNOVER**

**Call for Abstracts**

Joint Meeting with the  
French Society of Neurosurgery

[www.dgnc-kongress.de](http://www.dgnc-kongress.de)

# Balancing between the poles of research and patient care

Dear colleagues,

I would like to cordially invite you to the 76<sup>th</sup> Annual Meeting of the German Society of Neurosurgery in Hannover from June 1–4, 2025. We have chosen the Hannover Congress Centrum as the venue, a place that offers many options for our scientific sessions, training events and poster sessions. We will put together a highly attractive scientific programme that presents the entire spectrum of neurosurgery, including our many super specialities.

The motto of our congress in Hannover is *Balancing between the poles of research and patient care*. In an increasingly difficult environment, it is a challenge for all of us to maintain a balance between excellent research and highly specialised, but also attentive, patient care. It is also important to identify and expand the interfaces between our discipline and other disciplines and basic science.

Our society's last congress in Hannover took place in 1998 and we are very pleased that after more than two decades Hannover has now been chosen as the venue again. Hannover is a dynamic, multinational and open city with a rich academic and cultural life.

## ABSTRACT SUBMISSION

Abstract submission is available online only at [www.dgnc-kongress.de](http://www.dgnc-kongress.de) until **January 12, 2025**. Abstracts will be reviewed by the DGNC Programme Committee. Please submit abstracts in English.

A written notification about the acceptance as an oral or poster presentation resp. rejection will be sent in February 2025.

The abstracts are published in a citable form at the German National Library (DNB).

## REGISTRATION

Registration for the congress will be possible starting in January 2025 at [www.dgnc-kongress.de](http://www.dgnc-kongress.de).

Our partner society will be the French Society of Neurosurgery (SFNC). We have a long-standing friendship with the French Society of Neurosurgery, and many of you will certainly remember the congress of the German Society of Neurosurgery in 2005, when our Annual Meeting was held as part of a Joint Meeting in Strasbourg, France. We are expecting many of the top leaders of French neurosurgery in Hannover. We have also invited other international speakers from various countries and continents.

The support of the company Conventus will ensure a smooth and perfect congress organisation. Together with my conference team, I hope that we will be able to welcome many of you to Hannover in the early summer of 2025.

Join us in shaping the programme of the Annual Meeting with your abstract submissions and an outlook on both academic and clinical neurosurgery.

Prof Joachim K. Krauss, MD  
Congress President of the 76<sup>th</sup> Annual Meeting of the DGNC
